Hi John, I thought I'd take this opportunity to say thank you again for the course at Missenden in the summer. I learnt so much, and have been using my camera on a regular basis (I've just become a grandmother, so I've plenty of subject matter - not just the wee one, but the look of shock and exhaustion on my son's face is somehow satisfying!)

Hi John, Just a short note to say thanks very much for an informative and fun time over the last 10 weeks. I am looking forward to practising the camera techniques you have taught me. ... hope to see you soon on another one of your courses.

I enjoyed your course and learned a great deal, especially about how to use and understand functions on the camera other than automatic, which is exactly what I wanted to get out of it. It also gave me a shove to actually go out and use the camera for something other than snapshots of the children. Let's hope the impetus lasts. I am thinking about the next steps ...

In fact the feedback from your learners was positive and they seemed to have an enjoyable and rewarding time - so well done and we look forward to seeing you soon.

Excellent course, brilliant tutor - informative, clear, humorous. I learnt such a lot and am now much more confident re: using digital cameras.

Thanks, John. Successfully completed!

Thank you for the myriad of care plus detail you have done for me this 2008.

... and yet more to come....

Yet again very many thanks—Nick

Thank you for setting me on the road to a whole new experience—Steph

Thank you for your professionalism and the ability to motivate us to produce creative photographic projects—Ronnie

Thank you for an excellent course from which I have learned a very great deal. I can now take better photos—Graham

Really informative and enjoyable—Howard

really do appreciate everything you have shown me and taught me. I have the confidence to try the other settings on my camera and a much greater understanding of my camera and how to take pictures which is great as that is why I joined! I have learned so much and you kept it so simple so it wasn't overwhelming! So, thank you! I need loads of practice but it is great fun so I hope one day to take some really great pictures of very high quality! I will certainly keep trying.

Thanks John, the course was a helpful starting point and has given me confidence to explore the full functionality of my new camera, and new impetus to actually read the manual !!

I can say without any reservation that your teaching has been inspirational, increased my understanding, reduced my fear and re-taught me to think outside the box

Yesterday's landscape techniques course at Stony Stratford was just brilliant, I learned a lot and came away with all of my questions answeredfor now ! I found your style very relaxing and I particularly appreciated the way you made sure everyone was included regardless of the equipment they were using or the stage they had reached in their learning. The day was inspiring and I am now energised to go on to develop my technique and to take on board your advice about taking more pictures and the one about building a scrapbook .

I am looking carefully at your latest course lists and hope to book on to something else when I can.

Dear John, I just wanted to say Thank You. I enjoyed your Creative Photography Class. I learned a great deal. I look forward to attending another one of your courses ...

Hi John, Just a note to thank you for the fun day on Saturday. Excellent course and very informative, for both of us. We are trying to do our '20 minutes homework' everyday!!!!

Entries in grey are pencilled-in and await confirmation from the organisers

Course Information Sheets, with full details of each course, are available from the organisers
